***Career Systems International Is Now Part of Talent Dimensions Delivering
Different Retention Strategies for Different Roles***

FACTORYVILLE, PA (April 9, 2018) – For over 40 years, Career Systems International (CSI), founded by international best-selling author Dr. Beverly Kaye, has helped organizations worldwide maximize the strategic engagement, development and retention of key talent. As part of its continued focus to provide innovative strategic retention solutions, Career Systems International is now part of Talent Dimensions.

Founded by former CSI executives, Cile Johnson and Lynn Cowart, Talent Dimensions is committed to providing the same award-winning programs clients have come to know so well through Career Systems. Additionally, Talent Dimensions looks forward to broadening its horizons to focus more specifically on the strategies needed for retaining employees and minimizing turnover in order to propel organizations to new levels of performance through their people.

“We are thrilled to share that Career Systems and all of its solutions are now a part of Talent Dimensions. We are kicking up our focus on these critical solutions and expanding the work we do with organizations to understand, identify and implement strategies that drive strategic retention and ultimately sustainable competitive advantage,” said Cile Johnson, Chief Business Officer for Talent Dimensions.

Talent Dimensions provides consulting, coaching, training, and speaking engagements on the topics of employee engagement, career development, and leadership development. The identification and development of retention strategies for talent in critical leverage roles is a primary focus of the consulting work done inside organizations and is a specific focus for Talent Dimensions as well.

“As members of the CSI team before starting Talent Dimensions, Cile and I both gained an incredible amount of wisdom from Bev Kaye who founded and led that organization for so many years,” shared Lynn Cowart, Chief Operating Officer for Talent Dimensions. “We are honored to continue her legacy and thought leadership to help organizations keep their most valuable people in their most valuable roles.”
